

Languages

The website www.Digital-Interim-CxO.com is primarily aimed at the German-speaking countries Switzerland, Austria and Germany (SWAG region). However, it is also available in English.

Most of the documents on the site (each available as PDF) are only available in English. This serves on the one hand to minimize the effort. On the other hand, it can be assumed that the majority of the visitors of this website is proficient in English.

We ask for your understanding in this respect.

Genders

In Germany in particular, the issue of a gender-specific language is controversially discussed.

On this website the so-called "generic masculine" is used in the German texts. With it then also all further sexes are meant simultaneously. Discrimination against these other genders is far from our mind. We are of the opinion that in this way the texts are

1. more understandable,
2. more readable,
3. better to read to someone,
4. grammatically more correct,
5. clearer and therefore
6. more legally secure.
